Describe this peer's greatest strengths / contributions to the project:

Molly has been a very dependable member of the team. She has had to attend a lot of rehearsals and has been to every single one on time and prepared. She has also attended all meetings. She appears to know her stuff and has been able to teach challenging harmonies to young actors. There have been some specific things I have looked for musically and asked her to teach and she took my note immediately which I really appreciated. She also reached out to one of our mentors trained in music and took her notes well also. She is now taking on the role of running music as well which has been very helpful to the show!

Describe how this peer could have made a stronger contribution to the project:

Molly has been a very dependable music director. We did have some disagreements at auditions; I think we could work on more clearly defining roles at auditions! She also could improve a little on being patient with the cast. (It is very challenging thing that I am also working on. Working with youth tries everyone's patience I am sure!) But overall, she has been doing a great job. I look forward to continue to work with her and complete another evaluation at the conclusion of our process.
