Describe your greatest strengths / contributions to the project:

I believe that I do know what I am talking about when it comes to music. I have been able to teach the cast difficult harmonies, and in some cases song. When I have had the opportunity to have a one-on-one music session with a cast member it has greatly improved their performance. I have shown up to every rehearsal and meeting on time and prepared with what I need. I do my best to take the notes that I am given, both by the director and my mentor, and incorporate them into the next rehearsal or meeting. I am very dedicated and will do everything in my power to help this show be a success.

Describe how you could have made a stronger contribution to the project:

I have very strong opinions on some things, and I am not afraid to state them. Sometimes this can be viewed as me not wanting to listen or just trying to get my way. I do not mean to cause issues and am only trying to share my opinion. I could work on giving my opinions in a different way, so that I can avoid any tension in the future.
