**Describe your greatest strengths / contributions to the project:**

I accompanied multiple songs with the group and individuals. I tried to follow them and play the way they needed. I sang multiple songs and did my best to memorize them. I also was willing to use my apartment for meetings so that we could practice with a piano.

**Describe how you could have made a stronger contribution to the project:**

I had to leave early one night because I had to get to work, so I could have tried to rearrange that better so that I could have stayed and interviewed the patrons instead of leaving after the performance.
